

WESTERN IRRIGATION DISTRICT

September 6th, 2023

City of Chestermere
105 Marina Drive
Chestermere, AB T1X 1V7

IMPORTANT NOTICE

Attention: City Directors (CAO)

Re: End of Season Plan for Chestermere Reservoir

Further to our extensive communication through July and August, the Western Irrigation District (WID) is writing to confirm that the water level in Chestermere Reservoir will be restored to regular operating levels. River flows, reduction in water demand, and precipitation within the basin has provided a positive water outlook and is resulting in the WID to communicate our end of season plan for Chestermere Reservoir.

The full operating level will be achieved by not later than September 12th, 2023 and will be maintained until September 30, 2023. This allows 18 days for users to remove property and prepare for winter. After September 30, 2023, the WID may begin drawing Chestermere Reservoir down to its winter levels.

Please continue to take the necessary steps to inform users, and to protect life & property.

Thank you for your attention to this matter.
